

src/infer_haplo/explain
_genotype.h

```
graph TD; A["src/infer_haplo/explain_genotype.h"] --> B["vector"]; A --> C["new"]; A --> D["stddef.h"]
```

The diagram illustrates the dependencies of the header file `src/infer_haplo/explain_genotype.h`. It is represented as a dark gray box at the top. Three blue arrows point downwards from this box to three separate light gray boxes below it, which represent the files it depends on: `vector`, `new`, and `stddef.h`.
